At October this year the race included the South Germany Championship 100 km and also the Championship from the Swizerland about 120 km.

Caused this, the entries reached a new record. More than 130 riders wanted to participate.

13 nations, started at the early Saturday morning to finish 160, 120 and 100 km.

This time the team created a new track direction south. This track will be part of the races the next years. The OC want to change the showground.

Only a few km far away they hope to have found the optimum. A beautiful place – Illertissen – promises for 2015 perfect conditions and possibilities.
